Reaction on Better Weather Than Expected, Poor Cables and Weak Stocks.

Monday afternoon, April 19.

Weather conditions over the week-end failed to meet expectations, and basis was laid for some of the reaction which came in speculative prices. Liverpool was below expectations, helped by concern over the prospective strike for higher wages and by uneasiness over the extent of the financial upset in Japan, advices regarding which are still vague. This also was credited with being a factor in the reactionary stock market, for it is feared in some quarters that this may be but a forerumer of similar experiences in this country, where speculation and extravagance have been running rampant for so long. More tightening of many conditions also shared in depressing values.

At the close futures in New York were barely steady at a decline of 37 to 71 points, while New Orleans left off steady at a decline of 112 to 42 points.

To make full response tomorrow morning Liverpool should be 12 to 28 points lower.

The weather in the belt was not nearly so bad as the trade expected, for the big low barometer proved one that brought practically no moisture. The government report showed that the only effect so far was to cloudiness. The center of the low area this morn. Monday afternoon, April 19.

furbed the eleventh-hour buils. July dipped as low as 39.40, and October touched 36.20, or 105 points off from the early high for the latter. Recovery before the close was slight and sentiment more divided apparently than for some time.

some time.
Advices from the spot department told of cheaper basis for the low grades and limited demand, with sales generally small. Memphis soid 14,500 bales, the biggest business reported for the entire belt. New Orleans sold only 769 bales.

Because of the state election in Louislana the New Orleans markets tomorrow will be closed.

of \$4 to an advance of 23 points. NEW ORLEANS COTTON.

NEW ORLEANS, La., April 19—Conflicting weather reports caused an unscitted market in cotion today. In the early trading the market was inclined to sag because official returns did not show as much rain over the helf as expected from the nature of private weather accounts and prices fell off to levels 18 to 23 points under the close of last week. After the posting of the official forecast, calling for senerally showers weather in the eastern belt and over a portion of the western, the market strengthened again, recovered its losses and went to 19 to 32 points over Saugrday's final prices. July fell off to 36 for and reseted to 40 fsc.

Detailed reports from the weather bureau showing very light rainfall in the pelt over Sunday, rumors of an unfavorable financial situation in Japan, weightess in the stock market and reports of labor troubles in Lancashire all helped to soffen the market around the middle of the morning and bring about a general selling movement. Prices broke under the pressure and late in the morning the trading months were 43 to 71 points under Saturday's close. July trading down to 30.20c and October to 36.28c.

FROM WALL STREET

NEW YORK, April 19.—Advances extending from large fractions to almost four points attended the early dealings on the stock exchange today. Traders and speculative interests evidently were encouraged by the further weakening of the railroad strike and last week's favorable bank statements. Steels, equipments and coppers reflected a substantial demand with sugars and utilities, Consolidated Gas adding materially to last Saturday's gain. Investment rails and shippings also gave promise of forther improvement.

Selling became extensive at midday when United States Corporation stockholders were in session. Olls reacted with steels, equipments, motors and related specialities. The most severe deciline was made by Standard Oll of New Jersey, which fell 30 points on scattered offerings. NEW YORK, April 19 -- Advances ex

Sa = approximated 1,300,000 shares.

Although call loans cased to 6 per cent later, stocks continued under pressure, nominal ralles in some quarters being offset by further losses elsewhere. The closing was heavy.

ROUND THE TICKER

Montgomery. Ala.—Usually by the middle of April we find the planting of didner way. This year very little cotton has been planted, possibly little cotton has been planted, possibly 25 per cent. The ground has not been as well prepared as it should be, but the precipitation during the entire winter and early spring has put the fields in the condition to respond quickly to subsequent cultivation. We find that in the uplands about 50 per cent has been planted and some cotton up, while the bottom lands had to be grossly neglected on account of too much moisture. This we figure has caused planting to be about three weeks later than usual. The agricultural department of the state of Alabama reports sales of fertilizers from Oct. 1, 1918, to April 15, 1919, 264,100 tons, and the sales from 1819, 264.100 tons, and the sales from Oct. 1, 1919, to April 1. 1920, 329.570 tons, an increase of 65.470 tons. These fertilizers are of a better quality than they have been for the past few years, and will not only be used for cotton, but also for corn and other crops.—Weil Bros.

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

white diarrhoea is the trouble. 18. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all auch diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thackery, R. F. D. 3. St. Paris, O. writes. "I had 90 chicks and they all died but 32. Then I commenced on Avicol and baven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can your money will be refunded by return mail.
